GLOBE INN,

YORK STREET, NEAR THE DIAMOND,

GETTYSBURG, PENN'A.

THE undersigned would most respectfully inform his numerous friends and the public generally, that he has purchased that long established and well known Hotel, the "Globe Inn," in York street, Gettysburg, and will spare no effort to conduct it in a manner that will not detract from its former high reputation. His table will have the best the market can afford—his chambers are spacious and comfortable—and he has laid in for his bar a full stock of wines and liquors. There is large stabling attached to the Hotel, which will be attended by attentive ostlers. It will be the constant endeavor to render the fullest satisfaction to his guests, making his house as near a home to them as possible. He asks a share of the public's patronage, determined as he is to deserve a large part of it. Remember, the "Globe Inn" is in York street, but near the Diamond, or Public Square.

RAILROAD HOUSE,

NEAR THE STATION,

HANOVER, YORK COUNTY PA.,

THE undersigned would respectfully inform his numerous friends and the public generally, that he has leased the Hotel in Hanover, near the Depot, formerly kept by Mr. Jeremiah Kohler, and will spare no effort to conduct it in a manner that will give general satisfaction. His table will have the best the markets can afford—his chambers are spacious and comfortable—and he has laid in for his bar a full stock of choice wines and liquors. There is stabling for horses attached to the Hotel. It will be his constant endeavor to render the fullest satisfaction to his guests, making his house as near a home to them as possible. He asks a share of the public patronage, determined as he is to deserve a large part of it. Remember the Railroad House, near the Depot, Hanover, Pa.

STEVENS HOUSE,

21, 23, 25 AND 27 BROADWAY, NEW YORK,
Opposite Bowling Green,

ON THE EUROPEAN PLAN.

THE STEVENS HOUSE is well and widely known to the travelling public. The location is especially suitable to merchants and business men; it is in close proximity to the business part of the city—is on the highway of Southern and Western travel—and adjacent to all the principal Railroad and Steamboat depots.
THE STEVENS HOUSE has liberal accommodation for over 300 guests—it is well furnished, and possesses every modern improvement for the comfort and entertainment of its inmates. The rooms are spacious and well ventilated—provided with gas and water—the attendance is prompt and respectful—and the table is generously provided with every delicacy of the season—at as moderate rates.

NEW FIRM.

AT THE OLD STAND.
[ESTABLISHED IN 1817.]

I HAVE associated with me, in business, my son, John F. McCreary, under the firm and style of D. McCreary & Son, and I desire to say to my old friends and the public generally that since the war, the manufacture of Saddles, Harness, Collars, &c., has been revived at the old established and well known stand on Baltimore street, one square south of the Court House, Gettysburg, Pa.
Having had an experience of 40 years in this establishment, I feel assured, that, with renewed attention to business, we can still further merit and receive a full share of public patronage.
D. McCREARY.

With increased facilities for conducting our business, we are better prepared than ever to satisfy the wants of all those who may need anything in our line. We especially call the attention of Farmers and others to the superior quality of our

Plain or Quilted Horn Saddles,	Seat Side Leathers, Hames, all kinds, with

SEWING MACHINES.

The Grover & Baker.—The Best in Use.

THESE Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money,* and do their work better than can be done by hand.
The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.
☞ Needles and Thread will also be supplied.

BEAUTY.

The loveliest eye is that of faith,
Which upwards looks to God;

The richest voice is that of prayer—
One ne'er a vow has broken.

Agricultural & Domestic.

OPINIONS OF A FARMER.

Eds. Co. Gent.—I wish to give you my views on some of the questions concerning farmers, on which there seems to be a difference of opinion. I am near fifty years old, was always a farmer, as were my ancestors as far back as I can trace them. I have been a book-farmer since Judge Buel published the *Cultivator No.* 1. My opinions are formed on experience and experiments that satisfy me, whether they do others or not.

OPINION I.—Hay should be cut when in full bloom, as all plants contain saccharine matter then, and consequently are more nutritious if used for food. If hay is left later, the sugar turns to woody fibre. Wood and sugar are chemically the same.

II. All heavy or clayey soils should be plowed in the autumn, so that the frosts of winter may pulverize them and kill the germs of insects deposited in the soil for the next season.

III.—The best way to raise calves, is to take them from the cow as soon as dropped; if possible, never let them suck, as they learn to eat or drink sooner, and there are no sore teats from biting, and the task of weaning the cow from the calf is soon over. I put them in a place where they will be sheltered from sun and rain, give a good bed of straw, and feed 3 or 4 quarts of new milk per day, until three weeks old; then feed skim-milk warmed. Let them have access to hay or grass. By this method I have raised calves every year since I can remember, and never lost one in my life.

IV.—Nine-tenths of our farmers do not sow enough hay-seed to the acre. I have kept increasing the amount, and have not found a stopping place. The more seed the more and better hay, if timothy and clover, up to half a bushel each per acre. If the surface of the ground is completely covered, the hay will be fine, and no weeds can grow. I have choked out Canada thistles with timothy and clover seed sowed as thick as "hair on a dog," so as to form a good, firm sod the first summer. Sow early in Spring or in February.

V.—Oats should be sowed very early, as early as possible. I saw a good crop raised that was sowed in February, and was not harrowed, but snowed and rained in.

VI.—Cooking food for hogs is better than double the same amount if fed raw, if you wish to fatten. For breeding feed highly.

VII.—Potatoes are worth more, for all kinds of stock, than most farmers think they are. If you can have them frozen, and then cooked before they thaw, the starch is changed to sugar, and I know of no food that will fatten faster, or give a better flow of milk.

VIII.—In fattening beef cattle with corn meal, never feed so high that you can see or smell the effect of it in the excrement, or if you do you may be sure you are losing your feed, as the cattle do not assimilate all the nutriment there is in the grain.

IX.—I believe corncobs, ground with the corn, useful as residual matter, and they also contain sugar enough to pay for feeding if cooked or scalded. In Chicago, Ill., they make a good vinegar from sweet extracted from corncobs.

EGGS—HOW MANY TO A HEN.

Geylin, in his book on poultry breeding, says:—It has been ascertained that the ovarium of a fowl is composed of six hundred ovules or eggs; therefore, a hen, during the whole of her life, cannot possibly lay more eggs than six hundred, which are in a natural course distributed over nine years in the following proportion:—First year after birth 15 to 20; second, 100 to 120; third, 120 to 135; fourth, 100 to 115; fifth, 60 to 80; sixth, 50 to 60; seventh, 35 to 40; eight, 15 to 20; ninth, 1 to 10. From this the conclusion in deduced that it is not profitable to keep a hen after her fourth laying season is over.

Choice Miscellany.

Break up Hell Itself.—An old preacher in Western New York, who was being pursuaded by some of his churchmen, during the political excitement in that State, last fall, to join the Radical party, said:

"No, my brethren, I can't join that party, because all the Abolitionists in the country are in it; and Abolitionism, my brethren, has done a wonderful sight of harm among the people. It has hurt many shepherds and scattered many flocks. It got into the Methodist Church and broke that up. It got in among the Presbyterians and split them in two; and it got into the Government and broke the old Union to pieces. And, my brethren, I don't know of anything it is good for but to break up. If you have any enmity against the old boy, I advise you to send Abolitionism into his dominions, and it will break up hell itself in less than six weeks."

☞ A California story tells of a man who resolved to quit drinking, and went to a notary to get him to draw up an affidavit to that effect. The document was drawn, read and proved; the party held up his hand and murmured the usual "s'help me." It was properly sealed and delivered. "What's to pay?" asked the pledger. "To pay—to pay?" exclaimed the party; "nothing of course—this is labor of love." "Nothing to pay?" returned the grateful, but very forgetful affiant, "You're a brick. Let's take a drink."

☞ How true it is that vital piety makes small account of filthy lucre when celestial results are in view! For example: In the little village of Pembroke, during the progress of a protracted meeting, one hopeful and exceedingly liberal convert prayed in behalf of the many who had ranged themselves on the "anxious seat," that the Lord would "convert them at once." "Come down now, Lord, right off, right down through the roof—*I'll pay for the shingles!*"

☞ The Memphis *Avalanche* says: A walking match of two hundred and forty miles in two hundred and forty hours—not more than one mile in any one hour—was made on yesterday. Captain W. W. Joyce bets George Kirwin, the walking boy who won the late match, five hundred dollars that he cannot do the job. Kirwan is only seventeen years of age, is a native of Tennessee, and is a boy of splendid physical development and great pluck. In his late match he won, walking one hundred and twenty miles in one hundred and twenty hours.

THE UNION PACIFIC RAILROAD FROM OMAHA, NEBRASKA.

What has been done, and When it will be Finished.

No great enterprise was ever begun about which so little has been said and so much has been done. The public have a vague idea that a railroad is being built from somewhere in the East to somewhere in a farther West than a railroad has ever before been laid; but where it begins, or what route it follows, or where it is to end, we venture to assert, not one in a thousand can tell.

For a dozen years we have heard that a great Pacific Railroad *was to be* built, and a dozen names and a dozen companies, and a dozen routes—from the southern boundary of Texas to the northern boundary of Lake Superior—have been urged upon Congress as the greatest and best means for uniting the Atlantic and Pacific shores. Bubble after bubble was blown, and each burst in turn when touched by the sharp point of practical experience.

The absolute necessity for a Pacific Railroad to retain and bind more closely together the eastern and western extremes of the continent in one great *United and Pacific* country, the immense cost of government transportation to its frontier and Rocky Mountain posts, and the even greater cost of Indian wars, in a region that nothing but a railroad could civilize, and nothing but civilization could pacify,—the great importance of opening a road to the rich gold and silver mines of the Rocky and Sierra Nevada Mountains, so that the way to *the resumption of specie payments might* be made shorter and easier,—all these *prudential* reasons finally pressed with such weight upon Congress, that it determined that the road should be made. There were, indeed, many others: two thousand miles of additional territory would be opened for settlement; vast bodies of land now valueless would be made productive; the tide of business and travel that now winds a tedious and and dangerous way along the borders of two oceans, would be increased ten-fold; and how would the fathers in the East strike hands with their sons and daughters at the Golden Gate, if they could only be born on the wings of the locomotive!

The imperative need of the work was admitted, but it was too vast for individual enterprise to attempt. No combination of private capitalists was willing to risk a hundred million dollars in the construction of 2,000 miles of railroad through a wilderness. As the undertaking was strictly national, so no power less than that of the nation was sufficient to accomplish it; and large as the cost necessarily would be, the expenditure would save a much greater cost to the country.* But the Government did not wish to enter upon any new system of internal improvements on its own account; and its only alternative was to grant its aid in the most careful manner to such responsible individuals of suitable character and energy as might be willing to risk a portion of their private means in the construction of the road.

THE COMPANY'S CHARTER AND ROUTE.

This charter was granted and perfected by various acts of Congress, and the Company comprises men of the highest reputation for integrity, wealth, and business experience. Among the officers are General John A. Dix, President, Thomas C. Durant, Vice-President, and Hon. John J. Cisco, late Assistant Treasurer of the U. S., Treasurer.

The Capital authorized by the Charter is One Hundred Million Dollars, of which it is estimated that not exceeding Twenty-Five Millions will be required, and of which Five Millions have already been paid in.

Surveying parties were at one pushed out in various directions across the continent to find and locate the best available line between the Missouri River and the Pacific Ocean. This was established at Omaha, in Nebraska, on the east, and will finally be at San Francisco, in California, on the west—a distance of nearly 1,900 miles. The Chicago and North Western Railroad is now completed from Chicago to Omaha, a distance of 492 miles; and several other roads are rapidly building to unite with the Union Pacific at the same point; so that its eastern connections will be numerous and complete.

The general line of the road from Omaha is west up the Valley of the Great Platte, and thence across the plains a distance of 517 miles, to the Black Hills, or easterly spur of the Rocky Mountains. Col. Seymour, the Consulting Engineer, reports that the grade is much more favorable than was anticipated—the maximum to the Rocky Mountains not exceeding 30 feet to the mile, and from that point to the summit, or divide of the continent it will not exceed 80 feet to the mile. From the Rocky Mountains, the best practicable route will be taken to Great Salt Lake City, and thence by the Valley of the Humboldt River to the eastern base of the Sierra Nevada Mountains. The Central Pacific Railroad is now being rapidly built east from Sacramento, Cal., and is already completed about 100 miles, and will connect with the Union Pacific.

WHAT HAS BEEN DONE AND ITS COST.

As we remarked before, there has been very little talk, and a great deal of work. Almost before the public were aware, it had been begun. On the First of January, 1867, the Union Pacific Railroad was *finished* for 305 miles west from Omaha, and *fully equipped with Locomotives*, Rolling Stock, Repair Shops, Depots, Stations, &c.—and the Company have on hand Iron, Ties, and other materials, sufficient to finish the road to the Rocky Mountains, or 517 miles from Omaha, by the first of September, 1867. It is expected that the whole line through to California will be completed in 1870.

The first 305 miles were graded, bridged and ironed, with a heavy T-rail, and supplied with suitable Depots, Repair Shops, Stations, Locomotives, Cars, and all the necessary appurtenances of a first-class road, for $50,000 per mile, and it is believed that the remaining portion will not increase the average cost to more than $60,000 per mile, exclusive of equipments.

MEANS FOR CONSTRUCTION.

When the Government determined that the road must be built, it also determined to make the most ample provision to render its speedy construction beyond a doubt.

1st—THE GRANT OF MONEY.—The Government issues to the Company its SIX PER CENT. THIRTY-YEAR BONDS at the rate of $16,000 per mile for the whole road, and, in addition, for 150 miles across the Rocky Mountains this grant is *doubled*, making it $48,000 per mile; and from the termination of this section to the California line (about 838 miles), the grant is *doubled*, making $32,000 per mile,—the whole amount being $44,208,000. These bonds are issued by the Government only on the completion of each section of twenty miles, and after the Commissioners appointed by the President of the United States have certified that it is thoroughly built and supplied with all the machinery, &c., of a first class railroad. The interest on these bonds is paid by the U. S. Treasury and the Government retains, as a sinking fund to be applied to repayment of principal and interest, one half the regular charges made for transportation by the Company against it. These bonds, which are a second mortgage, are not due for thirty years, and it is not improbable that the value of the services to be rendered to the Government during that period will constitute a sinking fund sufficient for their redemption at maturity.

2d. THE FIRST MORTGAGE BOND.—The Government permits the Company to issue its own Mortgage Bonds at the same time, and on the same terms, and for the same amount, and *by special Act of Congress these bonds of the Company are made a* FIRST MORTGAGE on the ent

The Compiler.

GETTYSBURG, PA.

Monday Morning, July 22, 1867.

FOR JUDGE OF THE SUPREME COURT,
HON. GEORGE SHARSWOOD.

CONGRESS.

The President on Friday sent to both Houses a message vetoing the supplementary Reconstruction bill. The bill was thereupon passed by a two-thirds vote. The President also vetoed a bill appropriating a million of dollars to carry into effect the Reconstruction bills. It was likewise passed by two-thirds. The military commanders in the South are now clothed with full despotic powers.

The Senate passed a resolution to adjourn from Saturday until the first Monday in December, and it was thought the House would concur. A few more such Congresses and the country will be utterly ruined.

A GOOD ONE.

The Democratic State Convention of Iowa, at its recent session, passed, among others, the following resolution:

"*Resolved*, That the maintenance inviolate of the rights of the States, and especially the right of each State to order and control its own domestic institutions according to its judgment exclusively, is essential to that balance of power on which the perfection and endurance of our political fabric depends."

Immediately upon the promulgation of the platform the above resolution was violently attacked by the Radical press. It was characterized as embodying the very essence of secession, slavery and treason. It was the "abominable heresy of State rights that brought on the war and deluged the country in blood." It was "contrary to freedom and the enlightened spirit of the age," &c., &c. After going on in this style for about a week, one of the Democratic newspapers revived the Lincoln and Hamlin platform of 1860, showing that *the resolution is an exact copy of one from that document.* Since then the Radical press have had nothing to say.

☞The pending political campaign in Pennsylvania is all important. It is the opening of the great Presidential contest for 1868. There is a saying which runs thus: "As Pennsylvania goes so goes the Union." We can carry Pennsylvania next year, if we carry it this fall.—That we can carry it this fall by making a vigorous effort is absoluteley certain.—But we must work diligently and unceasingly, beginning early and not relaxing a single effort until the campaign closes. Shall we make sure of the victory which lies thus temptingly within our grasp? Let every Democrat and every Conservative voter but swear to do his whole duty, and Radicalism will be forever buried in the Keystone State.

☞The Radical papers announce with a grand flourish of trumpets that the Republicans at Hilton Head, South Carolina, have just succeeded in electing a Justice of the Peace. How the result was won may easily be understood by those who know how the system of Registration works in the South. Two-thirds of the white people there (embracing all the better class) are disfranchised, and the suffrage is nearly entirely in the hands of the negroes. Thus at Montgomery, Alabama, up to the 25th ult., the total number of persons registered was 3,948, of whom 3,000 were negroes and only 948 whites. In Savannah, Georgia, the registration showed 221 negro voters and only 59 whites, or nearly four to one. Information from other localities leads us to believe that this will be the proportion in nearly every State of that unfortunate section, and it need not surprise our readers, therefore, to hear Radical victories reported in abundance from that direction. The sole hope of Radicalism now consists in disfranchising intelligent white men and enfranchising ignorant negroes.

☞Recently in the Senate of the United States Mr. Sumner attempted to force upon that body the consideration of his bill for "universal suffrage," and in his remarks upon the subject he unblushingly admitted that the object of *the measure was to secure votes for the* Radical party. He said, "In Delaware, Maryland, and Kentucky, *it was needed to increase the Union* (Radical) *vote.* It would secure three thousand votes in Connecticut, and fifteen thousand in Pennsylvania. *It was needed in New York and Indiana, and in fact in every State.*" It is very evident that the Radicals are afraid of the white vote in every State; and, in order to neutralize its effect, they propose now to let negroes vote, no matter what the people of the several States may have to say upon the subject. Pennsylvania has the word "white" in her Constitution, in providing for the qualification of electors; but Mr. Sumner suggests that, in order to give the Radicals fifteen thousand votes hereabouts, the Congressional party shall tinker up our Constitution, without any reference whatever to the views and opinions of our people. This is what he calls giving a State a republican *form* of government!

☞A negro mob, about two hundred in number, assembled at Petersburg, Virginia, on Tuesday night week, and surrounding the cars rescued from the sheriff of Nansemond county a negro prisoner who was being brought to the penitentiary at Richmond. The negro thus forcibly released was again captured next morning and safely lodged in the penitentiary.

The negro "elephant" is becoming troublesome, as well as expensive. Almost every conceivable curse is being brought upon the country by Radicalism—the whole doubtless to culminate in a war of races.

☞Impeachment is played out, used up, gone up a very small spout. A majority of the Judiciary Committee of the lower House of Congress, to whom the subject was referred, declare that they find no cause for it. How are the blusterers "blowed out!"

☞In New Hampshire the dominating Radicals debar all Catholics from holding office. And yet they boast of their intelligence, toleration, regard for freedom, and the "rights of man." What hypocrites and fanatics!—*Patriot & Union.*

WHO IS THE MAN?

Col. Donn Piatt, of the *Morning Chronicle* Press, having seen the inside working of the Radical party, has written very freely and honestly about it. His Radical friends have been begging him to keep his knowledge to himself, as an exposure would hurt the party. The Colonel says he has been severely commented upon by some of his Radical cotemporaries and friends for his expose of thieves and thieving. He adds:

"We cannot help this. We propose doing our duty regardless of consequences. But we differ from our associates and friends as to these consequences. We believe that our success depends on the exposure of these frauds and an expulsion of the scamps. It has come to be known abroad that much of the National indebtedness, calling for heavy taxation to pay, not the principal, but the interest, originated in dishonesty, and went to enrich rogues instead of the Government. Now with the time upon us that calls for the entire income of the farmer, mechanic, merchant and professional man, to our national, State and local taxation, the consideration of this fact comes to be one of vital importance. And they whose hard earings are being wrung from them, will not tolerate any party that winks at, covers up, or directly conceals these frauds. Nor will they tolerate any organization that lacks the courage to expose and the power to punish this rascality. * * * * We are paying more than we can afford to pay in the way of taxation, to meet the interest on millions and millions of money stolen from the Treasury. * * Islands and wide domains are being purchased, and special trains run for an aristocracy that grows fat while the people suffer. *It is time for the* Republican press to speak out and spare not. We must hunt down and punish, not only that our party may prosper but that our Government may live."

As an instance of the way fraud is covered up by the Radical managers, and why, Colonel Platt declares that:

"Committees are appointed by Congress, and one of these nearly a year since traced a *fraud involving a million of dollars to the door of an official so high in office and the affections of the people, that all would be startled and pained were it made public.* And the report has never been published. And why? *Because it might affect the next election.*"

Who is this official "high in office and in the affections of the people," who has defrauded the tax-payers and the country of a MILLION OF DOLLARS? Who compose that committee of Congress, who refuse to expose such villainy, for fear of injury to the party? Col. Platt should at once give the public the name of the plunderer, and those of the Committee who shield him!

But punishing public thieves is not the order of the day. Millions have been stolen from the Treasury by Radical plunderers, and covered up for the sake of the party. Men who speculated off of the necessities of the Government, while it was in war—men who before it were almost mendicants, eat at the table of luxury, repose on beds of ease, and roll on wheels of splendor—represent us in Congress, in our Legislature, and fill our high places abroad. And their vast, monstrous and flagrant frauds are kept hidden by the Radical managers for fear an exposure may "hurt the party."

IMPORTING A EUROPEAN TAX SYSTEM.

It is not generally known that our great Radical-Republican Government has had, for a long time, a commissioner in Europe, gathering up information in regard to the European system of internal revenue taxation. David A. Wells is the individual, and he expects to lay his budget before the Rump Congress at its winter session. For more than three-fourths of a century the Democratic party maintained our Government without an internal revenue system. It is scarcely more than six years since the Radical party came into power, and note the change: taxes on everything we eat, use and wear. Not content, however, with the immense burdens already upon the people, the Radical leaders are determined to import the monarchial system, by which the working classes are reduced to the lowest wages and compelled to endure the pinchings of want or leave their country. What the result will be when the organism by which Old World despots grind the last cent out of their subjects shall be introduced into this country, it is impossible to tell. It will be bad enough, no doubt.—*Patriot & Union.*

SENATORIAL BLACKGUARDS.

A despatch from Chicago to the Cincinnati *Enquirer* says: "The trip of the Senatorial party to the West is ended. It is stated that during a large portion of their time several prominent members of the party were almost constantly intoxicated, and that especially at Omaha the conduct of this portion of the party was disgusting and disgraceful in the extreme. We hear of gatherings in which profanity and vulgarity approaching obscenity were not restrained even by the presence of married women."

☞Mr. Wendell Phillips, in the *Anti-Slavery Standard*, is "very glad to observe an increasing inclination among the colored men of the South to claim a share in the future management of public affairs," and he notes with satisfaction that the mayoralty of Richmond is claimed for a colored shoemaker, with three places out of five for blacks in the City Council, and says, "this is as it should be; we trust they will be elected." He also hopes wherever the blacks will be in a majority "to see ere long the offices in their keeping." "This," says Phillips, "is the logical sequence of their emancipation and enfranchisement."

☞A despatch from Leavenworth, Kansas, to the Cincinnati *Commercial* states that the Indians captured a train on the Santa Fe road on the 15th instant. Bisop Lamoy, ten priests and six Sisters of Charity were among the passengers. The men were all killed and horribly mutilated. The women were carried off. An escort tried, it is said, to overtake the train to protect it, but was too late.

Opposition Endorsement.—The Philadelphia *Sunday Dispatch*, like many other Radical journals, finds nothing in Judge Sharswood to condemn, but much to commend. It says:

"No better lawyer than the Hon. Geo. Sharswood can be found in Pennsylvania. As a judge he has had ample experience, and has conducted himself in all things with purity, impartiality and industry."

☞The Boston *Post* says "the negroes are much more numerous when wanted for voters than when sought for taxation. The commissioners of the revenue returned the number of males in Monroe county, Virginia, over twenty-one years of age, as 537; in the same county upwards of 12,000 were registered as voters. Other counties present equal disparity."

WHY THE LEGAL PROFESSION SUPPORT JUDGE SHARSWOOD.

It is announced that, with but ten exceptions, the entire legal fraternity of Philadelphia are in favor of the election of Judge Sharswood. This fact, and the additional one that, during the war, the Philadelphia bar united in a general letter requesting him to be a candidate for President Judge, shows that Judge Sharswood commands the respect and confidence, in a most eminent degree, of those who have been brought into the closest and most intimate business relations with him. Such is not often the case, as every person is aware. Public men generally stand highest where they are least known. Our worthy candidate, however, stands pre-eminent at home, and will receive his heaviest support where other candidates, less upright, receive the very least.

When Judge Sharswood was a candidate for President Judge he not only received the united support of the bar of Philadelphia, but was voted for and elected by the ballots of the citizens irrespective of party—though known to be a Democrat. Had there been anything in his record as a man or a judge militating against patriotism, or encouraging to disunion or rebellion, would the "loyal" bar and the "loyal" people of Philadelphia have given him their support? Most assuredly not; and without that support the Democrats could not have elected him.

Judge Sharswood is known to be a man of strict integrity; and, as a judge, upright and conservative. Radical lawyers may be willing enough to support the nominees of their conventions for the Legislature, for Congress, and the minor civil offices, for the sake of patronage, official position, and thorough prejudice or mere party spirit, (with which every man is more or less tinctured,) but when it comes to questions affecting the groundwork of nations—the laws and administration of justice—they take the "sober second thought," and act through principle, laying prejudice, party spirit and mercenary considerations entirely aside.

Radical lawyers—and lawyers generally reverence their noble profession—have already seen too much of courts which have been prostituted to the base uses of demogogues. Instead, therefore, of desiring a judge to be made a "faithful interpreter of the liberal spirit of the age," (see Williamsport platform,) they, in common with their conservative colleagues, desire and demand a judge for the Supreme Court who will stand by the Constitution and the laws passed in pursuance thereof, regardless of all party plans, dogmas or demands. They know that whilst the higher courts remain firm and incorruptible, upon a constitutional basis, ambitious and mercenary demagogues in legislatures and Congresses can effect nothing against the stability of the State or Federal Governments. Hence it occurs that so many political opponents in the legal profession favor the election of Judge Sharswood. They are certain that he will do nothing wrong, but, on the contrary, that he will stand as a bulwark against all partisan and wicked encroachments upon the constitutional liberties of the people. They may be, and generally are, willing to accept the benefits of party, and to do that which may serve to put money into the private pockets of themselves or friends at the expense of the taxpayers, but, for the sake of themselves and children, they desire to preserve the courts pure that the whole governmental fabric may not go to pieces through corruption and fanaticism.

This is the true secret, we believe, of the support which Judge Sharswood is receiving from his political opponents of the legal profession, and they are significant enough to weigh heavily with the people.—*Patriot & Union.*

VARIOUS MATTERS.

—The nomination of Judge Sharswood is a bomb-shell in the camp of the enemy.

—The press of the country is almost unanimous in denouncing the killing of Maximilian by the Mexicans. It is looked upon as a wanton and needless piece of cruelty.

—Notwithstanding the prohibitory law in Connecticut, Hartford has 253 places where one can "take something."

—There is an editor in Kalamazoo, Michigan, who is in favor of General Fremont for next President. Barnum has sent for him.

—Charles Kelfer, who committed suicide in Cincinnati recently, was fearful of coming to want, although owning property valued at $100,000.

—The negroes colonized at New Smyrna, Florida, by certain philanthrophic Radicals, are represented to be in a destitute condition. They complain that in almost every particular they have been deceived and disappointed.

—Young Christopher Columbus, descendent of the great discoverer, has just come into possession of his father's estate and title, Duke of Veragua.

—A circular saw about 22 feet in circumference, *has been sent to the Paris* Exposition by the American Saw Company. It is the largest saw ever seen.

—The richer a man makes his food, the poorer he makes his appetite.

—A negro in Dawson, Ga., stole a pair of boots and returned them the same day, saying his conscience wouldn't let him keep them. They were both for one foot and three sizes too small.

—At New Canton, Va., one day last week, two negroes got into a fight about some chickens one had stolen from the other, during which one was killed by a blow on the head with a brick.

—The Pittsburgers are discussing the best methods of relieving their ice from its strong taste of petroleum, an undesirable ingredient in cooling drinks just now.

—Another Revolutionary hero has been exhumed in Illinois. His name is John Regan, and he is 101 years old.

—In Staunton, Va., a few days ago, a gentleman had his nose cut off by the carelessness of a man who was carrying a scythe blade along the street.

—Congressmen Pomeroy and Judd were arrested and fined in Washington on the Fourth, for "shooting" fire-crackers in the street.

—In Ohio and most every other State, the Mongrel platform is flat-footed in favor of negro suffrage. In this State that party feared to say it favored that doctrine, and, coward like, tries to evade the question.

TOWN AND COUNTY AFFAIRS.

NEW POWER PRESS.—Our Press builders, Messrs. C. Potter, Jr., & Co., New York, write us, under date of July 13th: "We hope to have your Press off the coming week, without fail." They state that the delay has been occasioned by the necessity for putting in new tools, so as to turn out presses more promptly. They have been running nights until 10 o'clock for more than three months. They now see their way clear, having facilities for turning out a press every four days.

We have to ask our numerous readers, who cannot be more anxious for the enlargement of the COMPILER than we are, to "wait a little longer."

ST. IGNATIUS CHURCH.—The Catholic Church in Buchanan Valley, usually spoken of as the "Chapel," has just undergone a thorough "brushing up." The inner walls and ceiling have been very handsomely frescoed by Geo. Seiling, of Reading, who is never guilty of bad taste or bad work; whilst the altar, pews, and the entire outside, have been re-painted, in a very workmanlike manner, by Geo. Warner, of this place. A new roof has been added, with new cross, &c. The grave yard has also received considerable attention.

These improvements, thorough as they are, were all made in the incredibly short space of five weeks, under the efficient direction of Rev. Father Boll. The cost has been about seven hundred dollars, nearly all of which has already been raised by the congregation—a fact highly creditable to every individual member of it. We congratulate our valley friends on the good taste and liberality manifested in these improvements.

NORMAL SCHOOL.—Mr. Sheely, County Superintendent, will re-open his Normal School on the 19th of August. This Institution has proved a success, the applications last session exceeding the accommodations of the room.

EXAMINATION.—The County Superintendent announces his appointments for examination of Teachers throughout the county, commencing with Straban on the 3d of August, and closing with Franklin, Oct. 12.

TEACHERS ELECTED.—The following persons have been elected Teachers of Common Schools for Gettysburg District, viz:

School No. 1.—Mr. J. Howard Wirt.
" " 2.—Miss Warren.
" " 3.— " Fannie McCreary.
" " 4.— " Jennie Gilbert
" " 5.— " E. Aughinbaugh.
" " 6.— " Mary J. McCreary.
" " 7.— " Nancy White.
" " 8.— " Sallie Frey.

PIC NIC.—A German Pic Nic will be held at Wolf's Spring, on the York turnpike, about one mile from Gettysburg, on Wednesday, the 31st of July inst, if the weather be good—if not, on the next clear day. The Gettysburg Cornet Band will perform on the occasion, and the choicest music may therefore be expected. A Cotillion Band will also be engaged. Refreshments can be had on the ground, and Police will be present to preserve order. Every arrangement will be made to render the Pic Nic a pleasant one. The public are cordially invited.

A REMARKABLE COW.—Mr. George Straley, of Paradise township, owns a cow of the ordinary species which is most remarkably prolific. She is now about eleven years old. At her third year she had her first calf, and since that time she has had nineteen, making in all *twenty* calves in about eight years. This seems almost incredible, but it is vouched for by reliable persons.—*York Gazette.*

SCALES AT THE PARIS EXHIBITION.—*Le Moniteur Universel*, the official journal of the French empire, says:

"Among the expositions of the American section which attract the greatest interest, it is necessary to specially mention the collection of weighing instruments exhibited by the house of Fairbanks & Co., of St. Johnsbury, Vt., which has, for a long time, sustained a great reputation in this branch of manufactures. This collection embraces the most complete assortment of balances, from a single gramme to thirty thousand kilogrammes capacity. The same house manufacture scales capable of weighing five hundred thousand kilogrammes. These weighing instruments, universally used in America, are adapted to all the different systems of weights and measures in use in every country. This exposition deserves to be recommended to all our mechanics and farmers, and to everybody interested in perfect weighing instruments.

A dispatch by Ocean Telegraph announces the fact that these celebrated Scales take the First Premiums (two medals) at the Paris exposition, and are mentioned in the award as *the Standard Scales!*

☞Bear in mind that the INDIAN DOCTOR will be at the Eagle Hotel, in Gettysburg, from the 23d to the 30th inst. All suffering from chronic diseases, and desire to know their condition, will please call at his room and be thoroughly examined, by electricity and the stethescope, after which he can tell to a certainty whether a cure can be effected or relief given. See "Special" column for remarkable cures performed by the Doctor. 2t

DYSPEPSIA.—This scourge of the race, the most aggravating of all diseases known, and hardest to cure, yields immediately to the influence of Coe's Dyspepsia Cure. It is certainly the most wonderful remedy ever discovered for Indigestion, and any disorder of the Stomach or Bowels.

SHAEFFER'S NEW GALLERY AT HANOVER, is the place to have your Pictures taken. None better, none cheaper.—Money refunded if not satisfactory. *

☞The unbridled insolence of the black population of New Orleans may be inferred from an incident that occurred in that city last Sunday. A brutal, ferocious looking negro forced his way into a car and took a seat in a white lady's lap. A gentleman next to her knocked the scoundrel down, but the negroes rallied for a fight and the car was quickly cleared. The police interfered and stopped the proceedings of the violent negroes.

☞The Rads do not pretend to have authority for anything they say or do. They ignore all precedents, all constitutions, all previously passed laws, and the whole republican system, as practised by the fathers of the Government. Their only governing principle is the "spirit of the age"—the selfish desires of an ignorant, fanatical, bigoted, and intolerant league of factionists.

American Manufactures.—The American Watch Company of Waltham, Mass.

Our readers know that the best mechanism of the best manufactories of this country is unsurpassed anywhere in the world. The genius of American inventions and mechanics produced the cotton-gin, the mechanical reaper and mower, the sewing machine, the best telegraphic instruments, and last, but not least, the wonderful machinery of the American Watch Company of Waltham, Mass., a mechanism that takes hold, of the raw material—the brass and steel, and gold, precious stones, and under competent direction turns out that daily wonder and necessity—a perfect time-keeper.

Beginning in 1850 in a very moderate way, but with the determination to make none but thoroughly good watches, the Company have continued to enlarge their works from year to year, (as they were unable to supply the demand) until now they manufacture about one-half of all the watches sold in the United States. Their factory covers over three acres of ground, and as an illustration of its extent, we may mention that it is supplied with over sixty miles of iron pipes.—These watches have proved so reliable that several of the railways of the country now furnish them as a part of their equipment; and while recommending other lines to adopt the same precaution against accidents, the editor of the Boston *Railway Times* remarks: "We have carried one of these watches for the past four years, and although it has had to submit to rough usage in camp life, horseback riding, &c., we do not hesitate to say that it is the best time-keeper and less expensive to keep in order than any watch we ever carried." The Company's success has stimulated the manufacture and importation of many worthless counterfeits, so that buyers should be careful to see that they obtain the genuine American watch made at Waltham.

MORE HELP WANTED.

It seems that the attempt which Congress made, through Mr. McPherson, to establish a class of violently Radical newspapers in the Southern States, will prove a failure, unless additional donations from the Treasury are promptly made. Neither the whites nor the blacks can be induced to read these journals, and the special appropriation made to them under the plea of compensation for publishing the laws of the United States, is found altogether inadequate to their necessities. Even Hunnicutt's paper in Richmond, the *New Nation*, is in its last stages. Hence we read in the *Tribune* of yesterday, that "until Congress makes an additional appropriation for their support, as well as arrangements to pay their bills promptly, this class of journals will fail from necessity." We, in common with other groaning tax-payers, will watch with interest to see whether, and in what shape, Congress will make this "additional appropriation."—*N. Y. Times.*

☞Charles Weiser, Esq., died at York on Wednesday, aged upwards of seventy years. He was a useful citizen, and highly respected.

☞The completed registration of Richmond, Virginia, shows the negro "voters" to be 1,116 in majority, although the whites are largely in majority in numbers. But, the Radical disunionists want black votes—not white ones. They want ignorance—not intelligence. They want machines to prop up their rotten party—not thinking, reasoning men, to upbuild the country. It is party now versus the country.

☞The Rads of the New York Constitutional Convention are entertaining a proposition to disfranchise the paupers of that State. At the same time they and the rest of the Radical leaders are laboring to extend suffrage to the pauper blacks of the South—the thousands of negroes who have lived for years and are now living upon the Government bounty dispensed by the Freedmen's Bureau. Is this conduct consistent?

The Greatest Pain-reliever in the World.

Warranted superior to any other, or no pay, for the cure of Chronic Rheumatism, Toothache, Headache, Sore Throat, Mumps, Burns, Cuts, Insect stings, Pains in the Back, Chest, and Limbs, Sprains, Old Sores, Swellings; also, to take internally for Diarrhœa, Dysentery, Colic, Spasms, Sea Sickness, Vomiting, and Croup. It is perfectly innocent to take internally, if used according to the directions, and never fails, as thousands can attest. It was first introduced in 1837, and now millions of bottles are annually sold. Every one who has once used it, continues to do so, and recommend it to their friends as the most valuable medicine extant. Certificates enough to fill a dozen newspapers have been received by Dr. Tobias. His medicine, the Venitian Liniment, will do all that is stated, and more. No one will regret trying it. Those residing at a distance from a physician, will find it a reliable medicine to have on hand in case of accidents. Ask for Dr. Tobias' Venitian Liniment, and take no other. Price 25 cents and $1. WONDERFUL! WONDERFUL!

The INDIAN DOCTOR will again be in Gettysburg at the Eagle Hotel, from Tuesday, the 23d, until Tuesday, the 30th of July inst. He can be found in his room all hours of the day. He detects the most obstinate cases, with electricity and the Stethescope, and can tell for a certainty in most cases whether a cure can be effected or relief given.

Examination and consultation free of charge.

Many persons who have been considered incurable, have been entirely cured, and others greatly relieved, by his BOTANICAL TREATMENT and ELECTRICITY. His practice is in harmony with all the laws of the God of Nature. Many eminent Physicians of every other practice, not only acknowledge the powers of the Botanical practice, and the virtues of Electricity, but receive the treatment for themselves, as well as recommend it to their patients. The following are the names of some of the most remarkable cures made in extremely obstinate cases by the Doctor, in Gettysburg, Waynesboro', Newville and Carlisle: Miss Agnes Snyder, of Adams county, cured of deafness of five years' standing; Mrs. E. Little, nervous affection, Gettysburg; John McKesson, greatly improved of deafness and affection of the liver, near Millerstown, Adams county; John Grove, cured of deafness; Miss Charida Hill, nearly blind of opthalmia of the eye, Taneytown, Md.; Mrs. Pilkey, cured of scrofula of the eye, at Carlisle; Edward Richter, Chambersburg, cured sound of consumption; Mr. Martintidrall, cured of consumption, which had been pronounced incurable; he is now well and at work at Waynesboro'; Albert Mills, consumption contracted while in the army—perfectly cured; Samuel Shaffer, cured of affection of the lungs; Wm. Shirey, consumption; Martin L. Zo, suffered for years with consumption and night sweats cured; Mrs. Merrick, cured of consumption; Mr. Logan, greatly relieved of affections of the lungs and liver; Mr. Strickhouser, of Seven Valley, York county, cured of affection of the eye; Miss Mary Bayley, cured of liver complaint and female debility; Squire Billman, cured of excess of blood rushing to the head, of five years' standing; Mrs. Doctress Williams, cured of lameness of the hand by a few applications of electricity; Mrs. Atherton, cured of dyspepsia of 20 years and palpitation of the heart; she is now stout and hardy, in Shippensburg; Mr. Wiest, cured of a bad case of Rheumatism, at Newville, Pa.; Levi Piper, suffered for years with scrofula in his eyes, had to relinquish farming—he has been entirely cured by the Doctor and has resumed farming—at Newville; Mrs. Ferry was lying at the point of death with dropsy and affection of the lungs, was entirely cured; Michael Landis, cured of dyspepsia; Mr. Smith, cured of falling fits; Mary Leyse was bedfast with consumption, never expected to recover, was cured and is now well and hardy.

Many other remarkable cures, which for want of room must be omitted, but can be seen at the Doctor's room.

Bear in mind that the Doctor treats consumption by the wonderful healing process of Inhalation. July 15, 2t

To the Melancholy.

The melancholy and despondent oftentimes think it useless to addict themselves to the habit of taking physic, especially in the form of Pill, and wear themselves, soul and body, slowly away by degrees, when, in fact, Radway's Regulating Pills act precisely the reverse with such like peevish natures. They brace off that moodiness at once; instill new life and blood, drive away despondency, and convince, by their properties, all such melancholy persons of their great mistake in allowing such adverse thoughts to command them. Those who harbor and there are millions) such fallacy, will admit, on trial, that there is a speedy and effective remedy in the Regulating Pills, and feel astonished what happy results they will warrant. Being coated with sweet gum, they are tasteless, and are purely vegetable. They should be used in cases of Indigestion, Inflammation, Pleurisy, Lumbago, Asthma, Costiveness, Dyspepsia, Piles, Kidney disease, and all Inner derangements. To the Nervous they are very beneficial.

Dr. SCHENCK'S MANDRAKE PILLS.

A SUBSTITUTE FOR CALOMEL.

These Pills are composed of various roots, having the power to relax the secretions of the liver as promptly and effectually as blue pill or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the latter.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts, which are the cause of bilious affections in general.

SCHENCK'S MANDRAKE PILLS cure Sick Headache, and all disorders of the LIVER, indicated by sallow skin, coated tongue, costiveness, drowsiness, and a general feeling of weariness and lassitude, showing that the liver is in a torpid or obstructed condition.

In short, these Pills may be used with advantage in all cases when a purgative or alterative medicine is required.

Please ask for "Dr. Schenck's Mandrake Pills," and observe that the two likenesses of the Doctor are on the Government stamp—one when in the last stage of Consumption, and the other in his present health.

THE UNION PACIFIC RAILROAD CO.

ARE now constructing from

OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making its connections an unbroken line

ACROSS THE CONTINENT.

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS,

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT. IN GOLD,

AT

NINETY CENTS ON THE DOLLAR.

This road was completed from Omaha 36 miles west on the first of January, 1867, and is fully equipped, and trains are regularly running over it. The Company has now on hand sufficient iron, ties, &c., to finish the remaining portion to the eastern base of the Rocky Mountains, 292 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

MEANS OF THE COMPANY.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. Thirty-year Bonds to the Company as the road is finished at the average rate of about $28,250 per mile, amounting to $44,236,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,092,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.

The authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

PROSPECTS FOR BUSINESS.

The railroad connection between Omaha and the East is now complete, and the earnings on the Union Pacific on the sections already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

VALUE AND SECURITY OF THE BONDS.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended;—on 220 miles of this road the cars are now running, and the remaining 297 miles are nearly completed.

At the present rate of premium on gold these Bonds pay an annual interest on the present cost of

NINE PER CENT.,

and it is believed that on the completion of the road, like the Government Bonds, they will go above

IN pursuance of sundry writs of Venditioni Exponas, issued out of the Court of Common Pleas of Adams county and to me directed, will be exposed at Public Sale, at the Court House, in Gettysburg, on SATURDAY, the 10th day of AUGUST next, at 1 o'clock, P. M., the following described Real Estate, viz:

A TRACT OF LAND,

situate in Cumberland township, Adams county, Pa., adjoining lands of Abraham Trostle, Joseph Sherfy, Samuel Herbst, John Socks, Michael Bushman, and others, containing 236 ACRES, more or less, improved with a Two-story Stone DWELLING HOUSE, a one and a half story Stone Back-building attached, a large Bank Barn, with the necessary Sheds attached, Hog Stable, Wash House, Smoke House, Spring House, well of water with pump in it; also an Apple and Peach Orchard. The Fairfield and Gettysburg turnpike road from Gettysburg to Emmitsburg runs through the farm. Seized and taken in execution as the real estate of George W. Rose.

ALSO,

A TRACT OF LAND,

situate in Cumberland township, Adams county, Pa., adjoining lands of Nicholas Oxford, George Weikert, Abraham Trostle, and others, containing 32 ACRES, more or less. The land is cleared and under fence. Seized and taken in execution as the real estate of Henry C. Neinstedt, Sr., deceased, in the hands of Henry C. Neinstedt, Jr., Executor of said deceased.

PHILIP HANN, Sheriff.

Sheriff's Office, Gettysburg, July 15, 1867. ts

☞ Ten per cent. of the purchase money upon all sales by the Sheriff must be paid over immediately after the property is struck down, or upon failure to comply therewith the property will again be put up for sale.

A FREDERICK COUNTY FARM

AT PRIVATE SALE.

THE undersigned, intending to remove West, offers his FARM at Private Sale. It is situated on Linganore creek, in Frederick county, Md., 14 miles east of Frederick city, 5 miles northwest of Mt. Airy Depot, on the B. & O. R. R., 3½ miles south of Unionville, and 5 miles southeast of Libertytown, containing 182 ACRES, 40 of which are in timber. The land is in good condition, adjoining limestone, and produces good crops. It has nearly all been limed over, some twice. There are some twenty acres of meadow or bottom land. The farm is well watered, Linganore running through it. The improvements are TWO HOUSES, one a Two-story Log, and the other a Two-story Frame, (new,) with a never-failing well of water at the door, Log Barn, large new Wagon and Carriage House, with Corn Cribs attached and Granaries above; a splendid young ORCHARD of choice fruit, just coming into full bearing, with different varieties of small fruits. Also, a Gristmill and Evaporator, with house, and everything thereto, to carry on the business successfully.

Persons wishing to purchase are solicited to view the property by calling on the subscriber, residing thereon.

Persons wishing more information, or fuller particulars, either personally or by letter, I shall be pleased to answer them at any time. My Post Office address is Linganore, Frederick co., Md. MICHAEL HOUF.

AMERICAN

Patent Lever Farm Gate.

This is the only Gate that has ever been invented which can effectually be opened, and closed, locked or unlocked, by a person in a vehicle, with a team, or on horseback, without getting from his seat. It is easily opened with one hand, leaving the other free to attend to the team; can be opened and closed by a child

FIVE YEARS OLD.

It is constructed upon a new principle, and is composed of wood and iron, combined so as to have all its parts exposed to wear or strain of iron, making it a strong and durable Gate, and one that will remain longer in good order and less liable to get out of fix than any other Gate known, and

WE CHALLENGE THE WORLD

to produce its equal as a Gate for closing lanes or alleys and one which is brought into every day use. Persons having to pass through gates when going from home will readily see the usefulness of this Gate—no getting into the mud or wet to drag open an old sagged-down gate, but remain in your seat and open or close the Gate with great ease.

ONE HUNDRED THOUSAND

of these Gates are manufactured with all the fixtures attached, so that they can be put up by any ordinary mechanic or laborer. They may be hung to a post, tree or stone pier. Plain directions given for hanging and operating the Gates. Warranted to work in wet or dry weather, and remain in order for twenty years, and will not be disarranged by the frost. These Gates, with all the necessary fixtures for operating and hanging, cost less than the ordinary old-fashioned gate, considering their durability.

ELIAS ROTH,
GEORGE SHANE,
New Oxford, Pa.

☞ The Gate can be seen in practical use at New Oxford, and at E. W. Stahle's, near Mummasburg.

LUMBER, COAL,

STOVES, TIN-WARE, &C.

Corner of Carlisle Street and the Railroad,

GETTYSBURG, PA.

AN IMMENSE STOCK!

IN order to give the public something like an adequate idea of the immense stock of Lumber, Coal, Stoves, Tin-ware, &c., &c., on hand and for sale by the undersigned, at his establishment, in Carlisle street, across the Railroad from the Passenger Station, he would enumerate as far as the limits of a newspaper advertisement will allow:

IN THE LUMBER LINE:

Boards and Plank of every grade, from cullings to panel, Joists and Scantling, pine and hemlock, Siding, planed and unplaned, Flooring, Shingles, Shingle Laths, Plastering Laths, Pickets, ready-made Doors and Sash, Blinds and Shutters,—in fact, everything used for building purposes.

IN THE COAL LINE:

Shamokin White Ash and Lykens' Valley Red Ash, these two varieties being the purest and best for all domestic purposes. Also the very best Broad-top and Allegheny Smith Coal.

IN THE STOVE LINE:

Waverly, Noble Cook, Royal Cook, Barley Sheaf, Oriental, Stewart's Cook, Ornamental, Excelsior, Prince Royal and the Emerald Cooking Stoves, all for coal or wood. These varieties are a selection from the best and most popular Cooking Stoves the market affords, and are all warranted to give entire satisfaction. Also, a very large variety of Parlor, Saloon and Shop Stoves, for coal or wood, including the celebrated Morning Glory, the Vulcan, Oval Meteor, Round Meteor, Dial, Violet, Gem, Regulator, Comet, Egg, New Egg, Parlor Cook, &c., &c. Fire Brick and Grates, for coal or wood, always on hand.

IN THE TIN-WARE LINE:

The assortment embraces everything necessary for kitchen or household purposes, including a large number of convenient yet cheap articles of new design which must be seen to be appreciated. The stock is so large and varied that those who have not visited the establishment have no conception of its extent. In addition to the ordinary kitchen utensils, it includes Bathing Vessels, Toilet Chamber Sets, plain and fancy, Chamber Buckets, Bread and Spice Boxes, Tea and Coffee Canisters, Deed Boxes, Spittoons, Tumbler Drainers, Bill-head Boxes, Waiters, Ale Carriers, Water Coolers, Shaw Cutters, Nurse Lamps, Jelly Moulds, Pudding Moulds, Patent Nutmeg Graters, Comb Cases, Gen. Grant Plates and A B C Plates, Ash Buckets, Flour Sieves, Bird Cages, Spout Heads, Coffee Mills, Lanterns, Basting Spoons, Large Forks, Candle Sticks, Candle Moulds, Copper Dippers, Wrought-iron Frying Pans, Smoothing Irons, Foot Scrapers, Coffee Roasters, Waffle Irons, Snuffers, Dinner and Auctioneer Bells, Egg Beaters, Oilers, Fluted Funnels, Coal Sieves, Glass-top Fruit Cans, Plain-top Fruit Cans, Self-sealing Jars, &c., &c. Tin-ware made to order, and repairing promptly attended to, by the best of workmen.

IN THE HOLLOW-WARE LINE:

Cast-iron Pots, of every size and variety, for stoves, Porcelain Kettles, for cooking and preserving, Tin-lined Kettles for ditto, Cast-iron Stew Pans, of every size and variety, Porcelain and tinned, with a thousand and one other articles impossible to enumerate in an advertisement.

Attention is specially directed to three valuable patents for which he is agent, and about which there is no humbug, as can be attested by scores who have used them, viz: THE UNIVERSAL CLOTHES-WRINGER, DOTY'S WASHING MACHINE, and the celebrated DIAMOND CHURN.

The public are invited to call and examine goods and prices. He guarantees to sell everything in his line at exceeding low figures. Come and see, to gratify your curiosity, if you do not want to buy. No trouble to show goods.

Studies to acquire the Art of Singing.

"THESE exercises were composed to be used simultaneously with his system, THE ART OF SINGING, or with any *other method* for the cultivation of the voice, and will take the place of CONCONE'S SOLFEGGIOS; being more melodious and better adapted for teaching.

"Some of these exercises are specially beautiful as well as useful, a mingling of the *dulce et utile*, which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intelligence and appreciation, and at the same time form the taste of the pupil. They must be studied carefully with reference to the innumerable marks of expression and forms of ornamentation. Upon the minute accuracy with which these are accomplished depends the actual sterling advancement of the pupil; any evasion or slurring in these respects is time and effort wasted, while, on the other hand, a close and patient investigation, and a constantly faithful execution of them, will give unexpected power and *facility*, and open to the student the means and resources by which great artists produce their most brilliant and profound effects."—*Watson's Art Journal.*

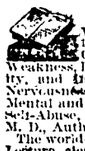
A LECTURE TO YOUNG MEN.



JUST PUBLISHED, in a sealed Envelop. Price Six cents. A Lecture on the Nature, Treatment and Radical Cure of Spermatorrhœa, or Seminal Weakness, Involuntary Emissions, Sexual Debility, and Impediments to Marriage generally. Nervousness, Consumption, Epilepsy, and Fits; Mental and Physical Incapacity, resulting from Self-Abuse, &c.—ROBERT J. CULVERWELL, M. D., Author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequence of Self-Abuse may be effectually removed without medicine, and without dangerous surgical operations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter to what his condition may be, may cure himself cheaply, privately, and radically. This Lecture will prove a boon to thousands and thousands.

Sent under seal in plain address, in plain sealed envelop, on the receipt of six cents, or two postage stamps. Also Dr. Culverwell's "Marriage Guide," price 25 cents. Address the publishers,

PELOUBET ORGANS

AND MELODIANS,

UNANIMOUSLY awarded the First Prize, a Gold Medal, "AS THE BEST CABINET ORGANS," American Institute, New York, October, 1865.

Being pronounced superior in QUALITY, POWER and VARIETY of TONE, and in number of combinations.

"As the best instruments of America were there contending, whichever won the battle would have nothing left to conquer."—*American Art Journal*, edited by a well-known musical critic.

They have also taken the first premium wherever exhibited this season.

PEDAL ORGANS, one, two and three banks of keys—six stops—250 to $1,500. Without pedals, single and double bank in great variety—$65 to $450. These Organs, with their smooth pipe-like quality of tone, beautiful solo stops, strength of church, unequalled pedals, and great organ-like effects, are superior for Churches, Halls, Parlors and Schools. They are put up in cases of solid Walnut, fancy veneered Walnut case and antique styles; and elegant Rosewood, of splendid designs and finish, and of the best workmanship—it being intended that each instrument shall be a model of its class. All instruments down to the five octave portable Melodeon, have the beautiful Tremulant stop, without extra charge.

A large assortment constantly on hand at our GENERAL WHOLESALE AND RETAIL WAREROOMS, 841 Broadway.

HAINES BRO'S. PIANOS.

THE PIANO OF AMERICA.

THESE Pianos are Universally acknowledged by competent judges equal to the best Pianos made. For references, they have many thousand city and country residents, including large numbers of the High Schools, Seminaries, &c.

These Pianos have not only stood the continual use and heavy practice of one year, but have been used the last fifteen years to the utmost satisfaction of those using them.

They have taken PREMIUMS AND MEDALS WHEREVER EXHIBITED. Such has been the demand for these Pianos, that MESSRS. HAINES BRO'S. have been compelled to enlarge their works to the extent of 24 to 30 PIANOS A WEEK.

Having now one of the most extensive and complete Factories in the United States, Factories alone covering ¾ of an acre of ground, comprising a frontage of 219 feet on 2nd Avenue.

They are unquestionably the cheapest first-class Pianos in market. Fully guaranteed for 5 years. Send for illustrated Circular.

ESTEY'S CELEBRATED

COTTAGE, HARMONIC AND BOUDOIR

ORGANS AND MELODEONS.

These Instruments stand unrivalled by any thing found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a lifetime of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodeous and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent regis, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

☞ BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

☞ Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.

FOR a medicine that will cure

COUGHS, INFLUENZA,

TICKLING IN THE THROAT WHOOPING COUGH,

or relieve CONSUMPTIVE COUGHS,

as quick as

Coe's Cough Balsam!

OVER ONE MILLION BOTTLES have been sold and not a single instance of its failure known. We have in our possession, any quantity of certificates, some of them from

EMINENT PHYSICIANS

who have used it in their practice, and given it the pre-eminence over every other compound.

It does not Dry Up a Cough,

but

LOOSENS IT,

so as to enable the patient to expectorate freely. Two or three doses

Will Invariably Cure Tickling in the Throat!

A half bottle has often completely cured the most *Stubborn Cough*, and yet, though it is severe and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.

In cases of CROUP we will guarantee a cure, if taken in season. *No Family should be without it.* It is within the reach of all, it being the cheapest and best medicine extant.

LYON'S PERIODICAL DROPS!

THE GREAT FEMALE REMEDY

FOR IRREGULARITIES!

I have tested these Drops in my own practice, over ten years, and do not hesitate to say, that nothing has yet been developed by medical research, that acts so powerfully, positively and harmlessly, in cases of female irregularity, as does this medicine. In all recent cases it never fails, while thousands who have been long sufferers are indebted to it for the boon of health to-day.

Although so powerful and positive, they are perfectly harmless, and may be used at all times, except when specially forbidden in the directions.

They have been extensively employed by eminent physicians in France and England, as well as in my own practice, over ten years, and I have yet to hear of the first instance of failure. I could give you testimonials of their efficacy from all over the northern and western States, were they not in their nature private. Over 100,000 bottles have been sold the past year, and I hope and trust as many sufferers have been benefitted. I am well aware that a remedy so potent to remove all obstructions, may be used for a bad purpose, but trust that where one bottle is thus used, ten may fall into the hands of really needy sufferers.

To all who suffer from any irregularity; painful, difficult, excessive, offensive or obstructed Menstruation, Leucorrhea, or the train of diseases that follow, I would say, try a bottle of Dr. LYON'S FRENCH PERIODICAL DROPS. Being a fluid preparation, their action is more direct and positive than any pills or powders. Explicit directions, bearing my fac simile, accompany each bottle.

They may be obtained of nearly every druggist in the country, or by enclosing the price to C. G. CLARK & CO., New Haven, Conn., General Agents for the United States and Canada.

Practicing Physician.

DEMAND J. W. BRADLEY'S CELEBRATED PATENT DUPLEX ELLIPTIC (OR DOUBLE SPRING)

SKIRT.

THE WONDERFUL FLEXIBILITY and great COMFORT and PLEASURE to any lady wearing the DUPLEX ELLIPTIC SKIRT will be experienced particularly in a crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress an invaluable quality in crinoline, not found in any Single Spring Skirt.

A lady having enjoyed the PLEASURE, COMFORT, and great CONVENIENCE of wearing the DUPLEX ELLIPTIC STEEL SPRING SKIRT for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered, preventing them from wearing out when dragging down steps, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the *Fashion Magazines* as the STANDARD SKIRT OF THE FASHIONABLE WORLD.

To enjoy the following inestimable advantages in Crinoline, viz: superior quality, perfect manufacture, stylish shape, finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against IMPOSITION be particular to NOTICE the skirts offered as "DUPLEX" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waistband—none others are genuine. Also Notice that every Hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other skirt.

FOR SALE in all Stores where FIRST CLASS skirts are sold throughout the United States and elsewhere.

Manufactured by the Sole Owners of the Patent, WESTS. BRADLEY & CARY,
